February 2017

[Monthly Meeting: Tuesday, March 21, 2017](#)

Tour of the New Materials Institute and Riverbend Research Labs

220 Riverbend Road in the Riverbend Research South Auditorium, next to the Georgia Genomics facility and the Center for Applied Isotopes

(Dr. Jason Locklin and Joe Grubbs, Tour Guides)

Parking Available in lot E13 at Riverbend Research North and South

(Parking Permits Not Needed After 6:00 pm)

Pizza & Soft Drinks Social starts at 6:00 PM in Auditorium Lobby

Agenda: The meeting will begin with pizza and drinks at 6:00. At approximately 6:20 pm, we will move into the auditorium (food and drinks welcome) to listen to a few students/professors give a one slide presentation on their work. Around 6:50 pm, we will start the tour of the Institute and students from various labs will be standing by posters and specialized equipment for discussion.

Materials Institute and Riverbend Research Labs

The New Materials Institute takes a systems approach to the challenges of design and disposal of new products and materials. Its goal is the development of new materials guided by green engineering principles: the design and use of processes and products in a way that minimizes pollution, promotes sustainability and protects human health—without sacrificing economic viability and efficiency.

February Meeting Participants Had A Good Time

This was one of the largest turnouts for a Section Meeting in years (excluding our banquet, awards and picnic). The talk by Flynn Warren on Crawford Long and the Discovery of Ether and Anesthesia was well received and full of interesting facts and anecdotes.
